Mrs. James Henry Ballagh,  
2010 5th Ave.,  
City.

My dear Mrs. Ballagh:

I shall be very glad to talk to the Matinee Musical Club the first Thursday in January, on Primitive Song, with phonographic illustrations. I should like an hour and a half, in which to present a reasonable number of the phonographic records to illustrate more fully the ideas that I outlined at the Musical Convention.

I am always glad to do these things wherever they may spread interest and information; I would be happy if it were possible for me to continue doing them for the mere ~~fact~~ that it certainly is.

But after giving many years of my life to this community and to this kind of work, I was forced several years ago to set some price on my time.

My ordinary charge for such a matter would be \$25; but in this case I would be glad to make it \$15, and furnish the phonograph, if you will see to the transportation of the phonograph and me to the scene of action.

I was very much gratified by the interest shown at this brief exposition I was able to make; but it really needed much more time ---and I find most of my auditors felt about it as I did.

I shall be glad to see Mrs. Roy Moore and give her any assistance I can if she will make an engagement by phone, ---Home 51533---beforchand.
